

## Project X (Agile Assassin's)

Agile Assassins is a dynamic team of ten talented students from Tshwane University of Technology. Currently serving as academic mentors, these students are in the final stages of completing their Diplomas within the Faculty of Information and Communication Technology. They are currently doing their Work Integrated Learning (WIL) under the ICEP (Informatics Community Engagement Program). The Project X team operates as an IT project team that has a well-rounded set of roles: 1 Scrum Master, 3 Business Systems Analysts, 2 System Testers, and 4 Web Developers (including 2 Frontend Developers and 2 Full Stack Developers). Their combined skills and expertise have been instrumental in driving the design and functionality of the #Twentyfrom20 fundraising campaign website. Opportunities for internships, graduate programs or work placements for these talented students are welcome. For further details, please refer to the team's contact information below

### Meet the team

**Name:** Michael Sibanda

**Position:** Scrum Master

**Qualification:** Diploma in Informatics
